

A Heartfelt “Thank You” From Us!

An emergency response begins with someone placing a call to 9-1-1. There is no movement of a Police Officer, Fire Department or Emergency Medical Services unit until the 9-1-1 Dispatcher processes the call.

With the information we received, as well as what we were learning from monitoring the situation around the world, we quickly found out that the COVID-19 Virus could easily and literally incapacitate our entire Countywide 9-1-1 Communication Center.

Keeping our staff safe and healthy insured us that we could continue providing essential public safety communications services for our Monroe County residents, visitors, and all our essential public safety emergency field providers.

On Behalf of the Monroe County Control Center Board of Directors and Staff, we would like to give our sincere thanks to **all** who have supported us through this very difficult time. Whether it was for providing protective equipment for our staff, cleaning supplies to keep our center as free from the germs of COVID-19 as possible, the wonderful gestures of meals delivered to our center or simply a message or phone call letting our Dispatch and Administrative staff know that you are behind us and support our mission.

A Special “Thanks” To The Following Businesses and Organizations
